10 OCILB AND 6 KENTUCKY CREDITS

On behalf of the MCA of Ohio Trustees, I'm proud to welcome you to our Convention and Trade Show in Cincinnati! It's our annual opportunity to gather mechanical and sheet metal signatory contractors from across the region for a unique offering of education, advocacy and entertainment! I encourage you to join your colleagues, our national association leaders, labor partners and manufacturers and suppliers to promote and improve our industry.

We have a full schedule of timely sessions exclusively designed for signatory contractors. This year we also wanted to spread awareness for Mental Health and how the MCAO is here to help!

In addition to this stellar program of education, our manufacturers, suppliers and service providers will be on hand with exhibits so that you can see all the latest and greatest from the industry's top names.

And we didn't leave out the entertainment! At our Great American Ball Park Celebration you'll be able to experience the Cincinnati Reds Stadium as any Cincinnati Reds fan could! This celebration will feature a stadium tour, batting cages, drinks and signature game day classics!

MCAO has been the voice of specialty contractors in the Ohio legislature, agencies and courts since the 1960's but we can't do it without YOU! Please take advantage the incredible education program we've put together for you and enjoy entertainment and industry networking at the exhibits. You can meet and hear from your state and federal elected officials while the MCAO Trustees and Consultants get you up to speed on all the important projects and legislative initiatives we're spearheading in Ohio and in DC for the betterment of the entire industry!

Looking forward to celebrating with you in Cincinnati!

1:00pm-2:00pm General Session I: Augment Your Production with Technology

Speaker: Trent Leinenbach, GTP Software

This presentation will take a deep dive into the available technology that currently exists for trade contractors. It will also relate the tech to the workflows that the company needs to improve. The industry isn't ripe with available labor but turning worker 1.0 into worker 1.5 is more productive to the company than just hiring more people. Attendees will learn that there are very useful technological hardware and software solutions out there that can augment their workforce tremendously. They don't necessarily always have to add staff if they allow tech to make their current staff more productive.

(1hr OCILB and Kentucky credit)

This training, being provided by the UA, will educate and equip industry leaders at all levels with tools to address mental health and suicide concerns within the workplace. UA 392 Training Coordinator, Matt Taylor, has achieved his train the trainer certification in this critical program. Over the last year SMART, SMACNA and the ITI have engaged in numerous discussions to build alignment and a shared sense of purpose and to increase awareness about how to create an environment for welcoming, belonging and excellence – one that attracts and retains anyone who has the skills and desire to meet a culture of excellence.
